

Veterinary Check up during your holidays

We at Al Barsha Veterinary Clinic have the possibility to have your pet(s) checked at your house by one of our veterinarian while you are away. This service can take away some of the responsibility of the person who is looking after your pet(s) and it can give you “peace of mind” knowing your pet is checked up at regular intervals while you are away.

This can be especially important for older pets or pets with known diseases.

Additional charges apply for this service and these charges need to be paid upfront.

If you would like to book these regular holiday check ups, you can contact the clinic at reception@abvc.ae or call 04-3408601. Please have the following information available:

- Holidays address and contact details
- Holiday Care Consent Form
- Name of the person(s) taking care of your pet
- Correct house address and route description to your premises
