Use GCEN and save potentially thousands on your currency transfers!

Remittance through banks may not always be the best way of transferring money as you can lose a considerable amount on exchange rates and banks also charge commissions and transfer fees.

GCEN are specialists in the currency exchange markets and can save you time and money on all your foreign currency payments. Our bulk currency purchases provides us access to wholesale rates of exchange; and this cost benefit is passed on to the customer.

To use our services simply register with us on our website www.gcen.co.uk and we will contact you and guide you through the easy process.

You can also call GCEN on +971 4 3256322 or +971 50 4661965.
