

Some situations can cause stress

Help them through it,
give them CALM

Moving house, a new pet or baby in the household,
going away on holiday...

To help manage the stress of cats and dogs under 15 kg when faced with certain situations, CALM contains natural actives, alpha-casozepine and L-Tryptophane.

And because stress may cause dermatological and digestive disorders in animals, CALM formula is highly digestible and contributes to a healthier skin.

CALM : a major and comprehensive innovation to help maintain the emotional balance of cats and dogs, which can also be recommended for use in conjunction with behaviour therapy.
