

3 key active ingredients combined
when room to manœuvre is reduced.

The popular choice of vets worldwide for 10 years,
MOBILITY is now available for cats.

To help cats regain long-term mobility, Mobility contains a unique combination of active ingredients, with high levels of EPA/DHA, GAGs (chondroitin and glucosamine sulfates) and Green-Lipped Mussel (GLM).

Besides, MOBILITY feline is formulated to help support renal health with age.

MOBILITY feline: a complete response for more efficiency.
